DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of claims 13-16 in the reply filed on 5/1/08 is acknowledged.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13-16 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Darcy et al. US 5,858,212.

Regarding claim 13, Darcy discloses a method for treating a natural gas stream containing sulfur compounds comprising contacting with calcium hydroxide to remove hydrogen sulfide (see abstract and column 6).

Regarding claim 14, Darcy discloses calcium hydroxide (column 3, lines 63-66).

Regarding claims 15-16, Darcy discloses columns (Figures) and various measurements of contaminants and components (Examples and Tables).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Matros et al. US 5,658,541 discloses a process for removal of divalent sulfur compounds from gases comprising treatment with calcium hydroxide (see abstract and Example).
